Arrival of the Eliza Anderson

The Great Rebellion.

FOUR DAYS LATER NEWS.

The steamer Eliza Anderson arrived yesterday morning from Olympia, bringing four days later news from California and the States.

We are indebted to Captain John Fleming for the papers from which we take the following summary:

SACRAMENTO, June 22.
The Pony Express arrived at 10 o'clock this morning. The following is from the Sacramento Union's extra:

St. Louis, June 10.
Advices from England show that partiality for the rebel States is gradually changing.

A part of the Wisconsin troops had been ordered to Washington at 43 hours notice.

It is said that Beauregard intends to make a position at Manassas Junction impregnable.

The Government has evidence that there are many traitors in the North.

Marshal Beaufort says that there are 40,000 secessionists in Baltimore waiting for a favorable opportunity to rise.

St. Louis, June 11.
Governor Jackson and Major General Price, on the part of the State of Missouri, and Gen. Lyon and Col. F. F. Blair, for the United States Government, are conferring at the Planter's House, in this city, in reference to the affairs of this State. Much anxiety is manifested as to the result.

It appears that Arlington Heights were on the point of being attacked on Monday night. The enemy reported in force were within two miles. The government troops were formed to meet the attack, but for some cause unexplained the rebels withdrew.

An order for recalling Minister Harvey goes out on Wednesday. The evidence against him is overwhelming.

It is reported that the Michigan regiments were fired on in Baltimore. Army officers have been sent on to investigate this affair.

Every man in Virginia, from sixteen to sixty years of age, is obliged to be in the Confederate service by Thursday.

E. Joy Morris, of Pennsylvania, has been appointed Minister to Constantinople, and H. T. B. Low Minister to Venezuela.

Our relations with Peru have been renewed.

The fortifications at Arlington Heights are now very formidable.

Col. Schultzer, commanding at Bird's Point, broke up a band of secessionists near there and took several prisoners.

Fortress Monroe, June 9th.
Last night Gen. Butler sent a detachment to dislodge a force of rebels encamped nine miles from Hampton. The forces took two routes to form a junction at Little Bethel. At that point, it being dark, the German regiment mistook for the other party, and fired upon them, killing one and wounding others. After the error was discovered the force marched on the confederate encampment and failed to take it. They retreated in good order after losing 30 killed and about 100 wounded.

LEAVENWORTH, June 13.
It is reported that serious hostilities are threatening at Kansas City mission, both parties are collecting large forces in that neighborhood. Probably there will be a collision to-morrow.

YREKA, June 18.
The Pony arrived at Fort Churchill yesterday at 10 o'clock A. M.

St. Louis, June 10, A. M.
Nothing important has happened since Friday last.

Federal forces in Washington seem to be preparing for an important movement, but nothing definite is known. There is no doubt that Harper's Ferry will be attacked either to-day or to-morrow. Manassas Junction will be the scene of operations in a day or two, it is thought.

The secession troops at Harper's Ferry are reported to be suffering from disease and want of food. Gen. Beauregard has charge of them.

It is said Jeff. Davis will command at Manassas Junction.

The vote of Tennessee on June 8th, resulted largely in favor of secession.

It is said that J. A. McClelland will be Douglas's successor in the United States Senate.

Capt. McDonald was discharged in the U. S. District Court, in Springfield, Illinois, on June 8th.

Gen. George B. McClelland will have command of the United States forces in Missouri, as well as in Ohio, Indiana and Illinois.

Secessionists were destroying bridges in Virginia to prevent the Federal forces from advancing into the State.

C. A. Wickliffe has been nominated as candidate for Congress in the 5th District of Kentucky.

A National monument will be erected to Senator Douglas in Chicago.

The latest advices from Europe represent that England, France, and Austria were more favorable to the cause of the United States than before, the present Minister, Adams, to the Court of St. James, having brought about a friendly feeling.

Ex Minister Dallas and son have arrived at Washington.

News in Detail.

St. Louis, June 7—P. M.

The N. Y. Post's Washington dispatch of the 6th says there is no doubt but the Government has at last made one military movement of which the newspapers are kept in ignorance. On Tuesday night last the steam flotilla lying at Aquia Creek was reinforced. This looks like an early collision at that point.

The Tribune's Washington correspondent says it is believed that nearly half of the people in and about Frederick are disunionists, and that their cause has gained ground since the Legislature came together.

The Union men are in fear of Johnston's force, whose pickets, thrown out from Point of Rocks, come within eight miles of Frederick, to which place the whole army can be transported in a few hours; arrived there it would be within five hours of Baltimore. The sympathies of many in Maryland are shown by the fact that they have armed and fed the rebel troops, Virginia having furnished but few supplies. If these facts be true, it is high time Government posted a strong body of troops at Frederick.

From another source we learn that 600, of a rebel regiment of 700, encamped opposite Williamsport, have deserted.

Gen. Johnston is very unpopular, in consequence of his forcible seizure of provisions, and horses and wagons. It is increased by a conscription under which all males between the age 18 and 50 years in the country within 40 or 50 miles of Harper's Ferry, are to be mustered into service.

General Patterson is advancing to co-operate with General McClelland.

A column of General McDowell's command will probably advance within twenty-four hours to the other side of the Potomac, towards Manassas Junction.

It is doubtful whether the Harper's Ferry rebels will have time to join their forces at Manassas Junction. If not, they will be surrounded. If they do, there will probably be a brief and decisive battle, preliminary to our occupation of the place.

WASHINGTON, June 6.
It will be recollected, that some weeks ago the Government sent the dispatches on file at the telegraph offices. The examination of these dispatches is now progressing. Some curious developments are now being made. Among them is found a dispatch from Mr. Harvey, our lately appointed Minister to Portugal, notifying the Government of South Carolina of the fitting out of the expedition for the reinforcement of Fort Sumter, and its destination. Mr. Harvey's dispatch was the first reliable information the rebels had of the magnitude and destination of the expedition.

Mr. Harvey is a native of South Carolina, but for years was a resident of Philadelphia, and editor of the Philadelphia North American, or many years he was the Washington correspondent of the New York Tribune. He was appointed to the Portuguese mission because of his professed devotion to the Free Soil party.

It is ascertained from an eye witness that at the late fight at Fairfax, ten of the enemy were killed, and probably two or three more.

Reliable information puts the loss of the enemy in the affair at Aquia Creek, at 20 killed.

The plan of operations at Harper's Ferry is gradually being developed. The first move will probably be to dislodge the rebel forces at the Point of Rocks. The force now at Frederick—some 11,000 strong—will attempt their dislodgment. They have quite a number of 24-pound cannon, which, from the Maryland side, can operate most effectively amongst batteries of rebels, which are in a very exposed position.

BALTIMORE, June 7.
The steamer Adelaide has arrived from Fortress Monroe. The Quaker City had captured another valuable prize. The Harriet Lane also secured a sloop.

On Wednesday night a steamer from Norfolk, with a flag of truce, brought to Old Point one hundred and fifty women and children refugees. They say that many more are coming. An important military movement was understood to be on the point of execution when the steamer left.

St. Louis, June 7.
A. H. W. Cook, of Cole Camp, Benton county, has been commissioned by Gen. Lyon, to organize as many persons as he may please into a Union Home Guard in Benton and other counties. He is to act in all respects under the command of the President of the United States.

WASHINGTON, June 6.

Col. Bartlett of the Naval Brigade, states that Gen. Butler now has orders from the President and Secretary of War to accept the Naval Brigade, with the full complement of 1,200 men, and 80 officers, as ordered by the President on the 24 of May.

In the New Orleans mail which reached Macon post office yesterday, via Pittsburg, was a letter addressed to the Postmaster General, containing an application for the contract to carry the mail in the Confederate States.

The cavalry company captured at Alexandria took the oath of allegiance to the Federal Government to-day, and were released.

The Monticello is nearly ready for sea. All the other steamers have had steam up ready to depart at a moment's notice.

Additional troops have been ordered to Chambersburg, indicating an early advance on Harper's Ferry.

Measures have been taken to ascertain immediately how many of the three months' men will remain during the war. The result will decide the Administration relative to calling out a new levy.

There seems no doubt but that Beauregard is preparing for an advance on Alexandria.

At the Prize Court session in Washington to-day, several vessels were restored to their owners.

Fortress Monroe, June 6.

This morning the Harriet Lane exchanged about fifty shots with the Big Point battery, nearly opposite the Newport News on the James River. She received two shots and had five men wounded severely. She was about three-fourths of a mile from the battery, having seven embrasures which she burst immediately over them.

The night before last five companies went to the Halfway House between Hampton and Hooktown.

A dispatch to the Tribune says, those who witnessed the firing from Newport News with good glasses, believe shells from the Harriet Lane took effect within the works, and carts were seen to move off, it is conjectured, with the dead. The battery has twelve guns.

The Harriet Lane's purpose in exchanging shots with the battery was merely to feel their fire, and determine the character of the work. She received a shot through the bulwarks from a rifled gun.

CAIRO, ILL., June 6th.
Gen. Prentiss having learned that some Kentucky Secessionists had established a camp at Elliott's Mills, ten miles from here, sent two companies to the place, but when they arrived the enemy had fled.

Col. Wickliffe, who represents Kentucky in a semi-official character, visited General Prentiss to-day, for the purpose of protesting against this invasion of Kentucky.

In reply to Col. Wickliffe, Gen. Prentiss showed several letters from the western part of the State, asking protection from ruffianism, and declared his intention to send troops in whatever direction, and upon such soil as his Government ordered.

New York, June 6th.
A special dispatch to the Post says: Marshal Beaufort, of Baltimore, has begun a thorough work against the rebels of Maryland. Yesterday large quantities of powder and other contraband goods, also a considerable amount of specie, evidently intended for the rebels, were seized and put in a safe place.

Government approves of Marshal Beaufort's acts.

Before closing the postal communication in the rebellious States the Department sent circulars to all Southern Postmasters, informing them of the intended suspension. A large number have replied, expressing loyalty to the Government.

Several regiments of the three months' troops in Virginia are to be removed and replaced by three years' volunteers.

A citizen of Baltimore says he saw and conversed with Gen. Beauregard, at Manassas Junction last Sunday.

It is understood that the rebels have sent secret agents to Brazil to form an alliance with that power.

Two soldiers, belonging to the New York 7th Regiment, were found to-day on board a rebel schooner at Alexandria, the captain of which refused to hoist the Federal flag, when a member of the 7th Regiment shot him in the hand.

Secretary Seward remarked this morning that he expected soon to hear of sharp work at Harper's Ferry.

The Chamber of Commerce has resolved to present a suitable medal to each and all of Major Anderson's and Lieut. Slemmer's commands at Forts Sumter and Pickens.

The City of Washington brought more of Whitworth's rifled cannon for the Government, from loyal citizens in Europe.

New York, June 7th.

Offers have been made to the Government to construct steel-plated vessels, bomb and shell proof, to be finished within six months after the contracts.

It is understood that the Government will not make further requisitions for troops at present.

Col. Meigs is still in charge of the Potomac aqueduct and public bridges.

The President's mansion and all the depots are closed to day in honor of the memory of Senator Douglas.

The following is a special dispatch, but seems groundless:
"It is reported on high authority that if England interferes in American affairs, France will side with our Government to put down rebellion. Napoleon will not allow England to cripple her greatest rival."

CHICAGO, June 7.
Business generally was suspended to-day, the Board of Trade having adjourned yesterday until Saturday, on account of the funeral of Senator Douglas. The banks, jobbing houses and dry goods stores were all closed, and the streets, at an early hour in the vicinity of the line of march of the funeral procession, were densely thronged with people, large numbers of whom arrived from the country by the morning trains. At 11 o'clock, amid the tolling of bells and firing of minute guns, the procession moved from Bryan Hall, where, since Tuesday, the remains have laid in state, through Clark and Lake streets to Michigan avenue, thence to Cottage Grove. The procession was about two miles in length, and occupied an hour passing a given point. At a low estimate 10,000 persons were in the cortege. The military, Government and State officers, members of the Legislature, medical and legal professions, Masonic fraternity, Mercantile Association, Fire Department, Typographical Union, and all the benevolent societies of the city, were out to do honor to the memory of the illustrious dead. The services were conducted by Bishop Duggan, who delivered a brief but eloquent oration on the character of the deceased.

There is a destructive crevasse on the Louisiana side of the Mississippi, near Natchez, 250 feet wide and 19 feet deep.

WASHINGTON, June 7.
There are good reasons to believe that before many hours a column of 4,000 men will march from this city towards Harper's Ferry, the whole commanded by Col. Stow of the 14th infantry. The hour of starting, which has been postponed several times, is not yet definitely determined. The column will probably have no more serious task than that of intercepting the fugitives driven by other commands from Harper's Ferry. Other regiments are under marching orders.

Western Virginia will elect a Governor and Legislature and declare the Eastern portion in a state of rebellion.

It is rumored that Henry A. Wise is in a rapid decline.

This afternoon the United States forces captured a rebel company of thirty men in Virginia, some seven miles above Georgetown. They were heavily armed, and had plenty of ammunition. It is believed these are the men who have been firing on our advance pickets.

New York, June 8.

The Herald says, letters just received from John C. Fremont, dated at London, states he has purchased ten thousand Enfield rifles, and several batteries of rifle cannon for the Government, which he is waiting for to bring with him. He is only delayed until a portion of the rifles are finished. He also states that the Commissioners of the Confederate States had instructions to procure several steamers, in England, for the service of the Montgomery Government; but there was difficulty about getting money. They succeeded, however, in purchasing two steamers, for which they paid £76,000. These vessels, it appears, are to sail for Southern ports under the British flag, and will be registered as property of British owners, carrying nothing contraband of war, and, probably, in ballast. How they will be received by our blockading squadron remains to be seen.

CALIFORNIA.
The firemen of San Francisco had a grand celebration on the 17th, being the 19th anniversary of the organization of the fire department of that city. The procession occupied twenty-five minutes in passing the Bulletin office. Eugene Caserly, Esq., gave the oration on the occasion. The charitable fund of the department according to the treasurer's report amounts to upwards of \$64,000. The organization is in a very flourishing and effective condition.

H. B. M. Steamship T. Tartar, which leaves here on the 21st inst., direct for Panama, proceeds from thence to Callao, and on her arrival there H. M. S. Calypso sails for England. Parties wishing to ship treasure to England direct, can avail themselves of this opportunity.—S. F. Herald, 18th ult.

A house occupied by Mrs. Mary Hinckley and her two daughters, on the Crescent City road, about five miles from Jacksonville, was entirely destroyed by fire on the 18th ult., and the family, consisting of Mrs. Hinckley, her eldest daughter

aged sixteen and the youngest aged six were burned to death before the neighbors were aware of the conflagration.

The First California Guard on the 18th ult. received two field pieces and two howitzers, with caissons and equipments complete.

A portion of the 2000 stand of arms which arrived by the last steamer were turned over to the State authorities immediately after their arrival. Each of the twelve organized military companies get fifty Minie muskets and fifty sets of equipment. The rest will be distributed to interior companies as wanted.

The reported arrest of Benham, Mandeville and Terry, in San Francisco, by order of Gen. Sumner, proves to be without foundation.

Leland Stanford has received and accepted the Republican nomination for Governor. Mr. Childs, of Trinity, has been nominated for Lieut. Governor. About him we know nothing. Judge Norton, of San Francisco, was honored with a nomination for Judge of the Supreme Court. The Convention tried to force a nomination for Congress upon Mr. Phelps, one of the defeated candidates for Governor, but he demanded time for consideration.

Sweeney & Baugh's dispatch from St. Louis, June 10th, says the rebels at Harper's Ferry are dying from exposure and want of food. The rebels engaged on the works, being unused to labor and prostrated by it, demand that slaves shall be employed.

A number of French officers had obtained leave of absence from the Emperor to offer their services to the United States.

Five regiments left New York in one day for the scene of war.

One thousand rebel troops deserted from Harper's Ferry within three days and went over into Pennsylvania.

Bishop Hughes, of New York, had given warning to the Catholic clergy in the South against taking up arms in opposition to the United States Government and against countenancing rebellion.

It is believed that Judge Porter of Calaveras, and Worthington, of this city, have gone out to fight a duel. Porter is the challenging party.

AMERICAN AFFAIRS IN THE BRITISH HOUSE OF LORDS.—By late mails we have reports in detail of speeches in the House of Lords on American affairs. All the speakers condemned the idea that traitors were to be treated as pirates. They held that as to subjects or citizens of a foreign power, it was wholly inadmissible. Lord Kingsdown said: "We had recognized the southern confederacy, not as an independent state, but as a belligerent power, and, therefore, if the federal government should act upon the principle they had laid down as against British subjects, he apprehended that the government might with perfect justice interfere, and under some circumstances they might, by the influence of public opinion, be compelled to interfere. [Hear, hear.] Yet, at the same time, the offender could not, as a right, having acted in violation of the feeling of his own country, and, therefore, of his own government, call upon his government to interfere."

The most of the Republican papers deem the demonstrations of the English Government unfriendly to the United States Government. They appear to think France more favorable. Our representatives abroad are making a great effort to influence opinion there. "The American Ministers to European Courts—Dayton, Marsh, Pike, Sanford and Burlingame—have been holding a conference in Paris, to discuss their action, and to make it correspond. Fremont was present at some interviews, and it is also said that Cobden and one of the French Senators, Michel Chevalier, were there. The idea developed was that France could be influenced in behalf of the North more readily than England. Cobden is, however, not reliable as a friend of the North, unless the North acts as an abolitionary power. As soon as we proclaim emancipation he promises to come out strong for us, but not till then." Burlingame has been apprised that he cannot be received by the Austrian Government. This rebuff will be disheartened just now when a certain *entente cordiale* was growing up between our Administration and the Austrian Minister here, who had expressed his lively approbation of the strongest means which could be taken to suppress the rebellion.

The Quarrel between the Assembly and Judge Cameron.

The Assembly and Judge Cameron have got into a very interesting quarrel indeed. The Assembly—or the majority—have always manifested a constitutional antipathy to English law in its entirety. What suited their purpose is about all they ever would accept. Hence, they are a very consistent body indeed. Justice Cameron, however, has always exhibited a strong inclination to enforce English law in its entirety here, notwithstanding his history has been occasionally somewhat inconsistent through emasculating Imperial statutes, as in the Franklin oath case. But the influence of "the powers that be" were supposed to have originated that and other irregularities; and when left to exercise his own unbiased judgment, a sincere part has generally been attributed to him. The old saying that "when rogues fall out honest men come by their rights" is likely to be fulfilled before the present imbroglio is ended. And when Judge Cameron's case now under consideration is concluded it is hoped that the next highest judicial functionary will come in for his share of public revision. Thus, both of these famous notabilities will take their true position in the body politic. The quarrel between the Assembly and Judge Cameron is strictly a constitutional one. It resolves itself simply into the question, has a Colonial Judge the right to declare Colonial statutes null and void, when they are in contravention to an English statute? We have before expressed our opinion on this subject—that he has not the power to do so, except when the Colonial statute conflicts with an Imperial statute which distinctly names such Colony; or when a rebellious Act may be passed by the three branches of the provincial legislature. In either of these exceptional cases, we believe a Colonial Judge would be strictly in the line of his duty to declare null and void all such local acts. For it cannot be supposed for one moment that a Colonial Judge can ignore the right of the Imperial Parliament to enact laws for the colonies, or cease to recognise the allegiance due to the sovereign. So far as other Imperial statutes are concerned, many were never intended to be enforced here, owing to the dissimilar circumstances of the old and new country, and others were only tolerated in the absence of local legislation. Whenever the local legislature makes laws, we take it that they and they only are the laws which should be enforced, except in those cases mentioned.

A multitude of local Acts are passed in colonies on similar subjects to which Imperial legislation has been directed, yet the difference between England and the colonies renders Imperial legislation wholly unsuited to provincial necessities. How then would it be possible for the colony to flourish under such extraordinary circumstances? A colony cannot repeal an Imperial statute. Hence if the rule obtained here that Judge Cameron lays down, no local legislation could take place in opposition to English law, except the Imperial Parliament either expressly repealed the law, or passed an enabling Act, empowering the colony to legislate. The colonial policy of England has never recognized the necessity for the intervention of the Imperial parliament, except when a colonial constitution has been adopted differing from the landmarks of the British constitution. In the statutes about which this pretty quarrel has arisen, we see no encroachment on the reserved rights of England. They may be imperfect like nearly all the legislation of the last session; may lack machinery to carry them out; may be a bundle of legislative trash; and yet we cannot defend the position of Judge Cameron.

The quarrel, however, is not more especially designed to settle a constitutional question than to rout Judge Cameron from office. That is the covert design. And that is the design long entertained by the favorite few entrenched across James' Bay. The table of the frozen adder and the husbandman, is not without a parallel in this instance; and the probability is almost certain that more than one will feel his sting. To make the route doubly certain, no bills are to pass a third reading, no Estimates are to be voted, till "His Excellency takes such steps as he deems necessary," that is, appoint a new Chief Justice. Legislation then is to come to a dead-lock except a new judge is appointed. Such is a very important matter for the country indeed. If Judge Cameron is not a regularly educated lawyer, still, as Dr. Helmecken stated in the debate, "he is a better lawyer than any member of the House." We need not look there then for a new judge. It would

be dangerous to do so; and outside the House but one fit man can be found. If matters are pushed to extremities, we trust we will not have foisted upon the country a worse professional lawyer than we now have in a non-professional judge. For we do not believe that every change is for the better.

News from Rock Creek.—From a letter received in this city, from a perfectly reliable man, we learn that the Rock Creek mines are paying largely. But few claims are paying less than from \$5 to \$8 per day, and the average is from \$8 to \$20. Some claims are paying as high as from \$30 to \$50 per day. New mines have been discovered on streams emptying into Big Okanagan Lake, near the Mission 60 miles North of Rock Creek. They are said to be quite rich. One man took out \$180 in one day and a half with a rocker. Numbers are going to that place from Rock Creek. The American Creek mines opened favorably but the water drove the miners out. Since then some six or eight claims have been opened on the banks of that stream, and are paying \$10 per day to the hand.—Portland Times.

THE KILLED AT SUMTER.

Mr. Fielding, one of the men who was wounded by the discharge of the gun, when Major Anderson on left Fort Sumter—and was left there until his recovery—has now come North, having in his possession a pass from General Beauregard. He has gone to Fort Hamilton to join the rest of Major Anderson's corps there, and states that over three hundred men were killed at Fort Moultrie. This information we derive from one of the ministers now attending the Reformed Presbyterian Synod in this city, who met Fielding on the way.—N. Y. Tribune, May 31.

House of Assembly.

TUESDAY, July 2, 1861.

House met at 3 o'clock. Present, Speaker Helmcken, and Messrs. Foster, Crease, Burnaby, Cary, Tolmie, Macdonald, Waddington, Gordon.

LAND QUESTION.

Mr. Foster introduced the following:
Resolved, That a committee be named to report on the system existing in the land department regarding the facilities for immigrants to obtain land in Vancouver Island and its dependencies, and to report such improvements in the system as may be deemed advisable.

Mr. Foster said that in bringing forward the motion he had in view the establishment of a system at the Land Office which would have for its object the furnishing of proper information to immigrants in regard to the districts in which they should settle. At present there was no information furnished such persons, and many men of capital had come hither and after seeing the aspect of affairs had declined to settle in the Colony. This had occurred every season since the rush, and it was necessary for the House to see that another system was inaugurated.

Mr. Waddington seconded the motion, and most heartily concurred with everything which had fallen from the honorable gentleman's lips. The Land Office should be a directory, to afford settlers coming hither every information and encouragement. The Land Office is little better now than a stumbling-block, and if facilities are afforded immigrants for obtaining information as to the lands, no doubt a great stride towards settling up the Colony will be taken. The honorable gentleman instanced several cases as having occurred recently where people had inquired for information at the office, and had been unable to obtain any.

Mr. Crease thought the Committee should be empowered to take evidence.

Mr. Foster did not believe any evidence was necessary, and the resolution passed to a second reading.

MISCELLANEOUS.

The resolution of the House in the matter of the Chief Justice's decision was agreed to.

The Speaker—I have to inform the House that His Excellency will be prepared to receive the address of the House in reply to His Excellency's speech, to-morrow, at half-past 3 o'clock, p. m.

Mr. Burnaby gave notice of a bill (to be introduced on the 9th inst.) to close cemeteries existing within the limits of Victoria Town, and to provide for and regulate an extra-mural cemetery in their stead.

Adjourned till Wednesday (to-day), at 3 o'clock.

ORDER OF DAY.
Second reading of Alien Bill; second reading of Liquor License Bill.

From the River.

The sloop Eagle arrived from New Westminster yesterday morning with three passengers, Jeffray's Express, and nearly \$10,000 in gold dust.

The steamer Gov. Douglas, while on her upward trip on Sunday evening last, by the breaking of the shaft, lost her wheel, when near Sumas. The accident occurred from the inferior quality of the iron of which the shaft was made. The wheel is supposed to have sunk, as it was not seen after breaking loose. The Col. Moody has been placed on the route, and will take the Douglas' freight on to its destination.

Mr. Boas, of the firm of Levi & Boas, of New Westminster, has returned from Quenneville River. He gave a very flattering account of matters there, and is sanguine of the richness of the diggings. He purposes returning immediately with a stock of goods.

The weather has been moist at Yale and Hope for the past few days, and rain has fallen almost incessantly.

Captain Jeffray chartered the Eagle on Sunday at New Westminster, for the purpose of connecting with the steamers Eliza Anderson and Otter.

SHORT OF SAILORS.—From Capt. Hare, of the schooner Col. Eby, we learn that the ship Torrent, destined for Australia, with a load of spars, is short of hands, and the captain has been commissioned to procure several able-bodied men, if possible, at this place. Nearly every vessel leaving the lumber-mills for San Francisco, goes down fight-handed. From the appearance of our streets, there is but a poor show for the ships to replenish their crews at this port, just now.

SAIL VESSELS DUE.—The barks W. B. Scranton, N. S. Perkins, and Isle of France, sailed from San Francisco on the 20th ult., the two former for this port, and the latter for New Westminster. No other vessels were up at last accounts.

SPRAWBERRIES.—We acknowledge the receipt of a box of luscious British Queen strawberries, yesterday, sent us by Braverman & Lewin, Yates street. That firm received plenty more of the same sort by the steamer Eliza Anderson.

THE "ELIZA ANDERSON."—This steamer yesterday morning brought from the Sound 43 head of cattle, 432 sacks of flour, and a quantity of fruit. She left at two o'clock in the afternoon for Olympia and way-ports, with six passengers and ten tons of merchandise.

AUCTION OF SHEEP AND CATTLE.—At 11 o'clock, this morning, Mr. John J. Cochran will sell by auction the stock of sheep and cattle on Craigflower Farm. The stock comprises some of the finest animals ever offered for sale here.

AUCTION.—At 11 o'clock to-day, P. M. Backus will sell decanters, tumblers, wines, liquors, ale, champagne, and a few articles of furniture.

AT COST.—E. Marks, of Yates street, is selling out his stock of watches and jewelry at cost and offers great bargains to all who may stand in need of articles in his line.

ON THE WAY.—Seorgie, Holton & Co. yesterday placed the schooner Victoria Packet on their ways at the English village.

There were 40 prisoners in jail yesterday.

No Police Court was held yesterday.

THE BUTE INLET COMMITTEE.—The committee appointed at a public meeting of citizens some time since, to wait on His Excellency the Governor and request an appropriation from the British Columbian treasury to be applied to the exploration of the Bute Inlet route, yesterday performed that duty. His Excellency stated that he did not feel authorized to comply with the request at present, owing to a lack of funds; but that any assistance within his power would be cheerfully rendered. His Excellency also consented to furnish a gun-boat for the purpose of conveying supplies for the expedition to the head of the Inlet. We understand an application will be made to the public of Victoria to make up the present deficiency in the funds, and that if successful, the exploration will be vigorously prosecuted.

GOOD NEWS FOR US.—The San Francisco Times of the 17th ult. has the following gratifying piece of intelligence:

"The new steamboat built for Messrs. Ewell & O'Donohue, at Steamboat Point, will be launched on the 4th of July. She will immediately commence her trips between this city and Sacramento, in the place of the J. T. Wright, which will be transferred to the route between this port and Victoria."

From a private letter received here yesterday, we learn that the "Wright" will not make regular trips to this port unless a mail subsidy is granted by our Government. The day of sailing is not announced.

TIGER ENGINE COMPANY.—At a meeting of this highly efficient company, held last evening, the following-named members were elected to serve as officers for the ensuing six months: President, John M. Thain; Foreman, Samuel L. Kelly; 1st Assist., John P. Kline; 2d Assist., Henry Woods; Treasurer, John Parker; Secretary, Louis Rosenberg; Delegates, D. W. Higgins, Moses Phillips, Chas. Gowan; Auditing Committee, Edward F. Boyce, M. McGee, William Plasquet.

THE VOLUNTEERS.—The following members were sworn in yesterday by Chief Justice Cameron:—John D'Ewes, Joseph Bulley, Henry Nathan, James M. Henderson, James J. Young, Edward Dillon, William Rothwell, Thomas Harris, Francis Dickenson, Edward Dickenson, Frank Perret, James Golding, John Kennedy, M. W. T. Drake, John Darran, J. D. Pemberton, Alexander Steinhause, Christopher Tuite, Robert A. Thain, Joseph W. Trutch.

THE EXPLORERS.—The Bute Inlet exploring party, who started on board the schooner Antelope, have been heard from at Nanaimo. Two letters received here state that Messrs. Madden and Kenny had engaged Indians to go with them. One of the Indians belongs at Claman, Bute Inlet. He represents that there is a fine valley at the head of the inlet, and that Indians have lately arrived there from the interior. The party were in high spirits from Indian reports, and anticipated being back here in a few weeks.

A vessel, at first supposed to be the Isle of France, was seen off Race Rocks yesterday morning. She subsequently proved to be a vessel bound up the Sound.

The steamer Otter left for New Westminster last evening with 50 passengers, 90 tons of freight, 15 mules and 5 head of beef cattle.

Cuttings from Eastern Papers.

The War Drum is the title of a military paper just started in Boston by G. Coolidge. It is said that a man in Virginia has given Jeff Davis a \$100,000 check. General Scott may give him a bigger "check" than that.

Jeff Davis's cousin, a young man at Rockford, Ill., born at Natchez, Miss., has enlisted. He expressed his great anxiety to put a ball through his traitorous relative.

Two regiments have been received by the Government from New Mexico. The celebrated hunter and ranger, Kit Carson, is Colonel of one of them.

Col. T. T. Fauntleroy, who recently resigned a position in the army of the United States, has been appointed Brigadier General in the regular army of Virginia.

General Butler, in his official dispatches, states that the slave property escaped to his lines is worth sixty thousand dollars. Twelve negroes in his possession built Sewell's Point battery.

It is said the fit of Secession which recently afflicted Maryland, cost her over a cool million of dollars. Expense is a dear school, but some people will learn in no other.

A citizen of Hartford has given Capt. Ira Wright's company "a set of toilet articles" to each man. He probably wanted to see the men well dressed in line.

Mayor Mayo of Richmond has returned his certificate of honorary membership of the Seventh Regiment, and wants his mementoes to the regiment destroyed.

A Mobile paper understands that twenty-four gentlemen of Pickens county have forty-four sons in a company in that county—two to each one.

The New York Times learns from Lancaster that the health of ex-President Buchanan is far from good. Dropsical symptoms have made their appearance, which are alarming at his time of life.

Major Anderson says that no power on earth except actual wrong and violation of the Constitution by the government, can ever force Kentucky or any considerable number of her sons from their allegiance to the Union.

Arms are scarce in Virginia, and the Richmond papers recommend, as they cannot procure them in any other way, to take them from their enemies in every battle. A contemporary thinks that the advice is good, and might be profitable if Northern troops would consent to it.

P. Henry Aylett, Esq., has been appointed and confirmed by the Confederate Congress as District Attorney for the Eastern District of Virginia. He held the office when the Union was dissolved, resigning when Lincoln went to Washington.

Two men in Greene county, N. C., named Tyson and May, brothers, have been convicted of treason, in endeavoring to incite the slaves to insurrection. A special messenger has been dispatched to Gov. Letcher, of Virginia, to see if they can be admitted to confinement in the penitentiary of that State. If not they were to be executed on the 10th inst.

The dispatch from St. Louis to Kansas City, Mo., ordering the removal of the arms, was shown by the operator at the latter place (such is the honor among Secession operators), to the Secessionists there, who immediately stole the arms. The dispatch was then delivered.

One of the soldier-boys in Washington wrote home to his mother that he was having a first-rate time, but that Washington was the "worst fed" Capital he ever saw.

A Boston volunteer at Washington says, in a letter: "At the time of my writing, with 4,000 troops quartered in the Capitol building, there is not so much noise as your Common Council would make in electing a city messenger."

EFFECTS OF THE AMERICAN WAR ON THE IRISH LINEN TRADE.—A letter from Belfast, Ireland, of May 2d, published in the London Sunday Times, contains the following remarks on the above subject:

The effects of the unfortunate outbreak of hostilities in the United States are beginning to be felt in earnest in Belfast, the seat of the Irish linen trade and capital of Ulster. Already the hand-loom weavers of Ballymacarrett, Lisburn, Newtonards, Belfast, etc., are in a state of positive starvation, rivaling in intensity the terrible visitation of 1847. Local committees, though of a very limited influence in the several localities, are unceasing in their efforts to collect the means of affording temporary relief, but their exertions labor under the disadvantage of not being "fashionable," and but trifling assistance is afforded. The United States have been large importers of Irish linens, which the recent Northern tariff will now almost entirely exclude. In yarns, owing to the very unfavorable intelligence from America, and other causes, the home demand during the past week has been decidedly inactive. A somewhat increased business has been doing with Scotland, and I have heard of large orders for the Continent, conditional on concession in prices, having been declined. I may sum up the present condition of the Ulster linen trade with the remark that, in hand-loom linens with manufacturers, power-loom linens (brown), and white linens with bleachers, great depression exists, and that transactions, though small, keep pace with the present decreased production.

The labor market in Scotland at present seems to be overstocked. "A steady, trustworthy man" being recently wanted at the Leith Docks, and sixteen shillings, sterling, per week offered as wages, two hundred and sixty-two applications were made.

Hostetter's Celebrated Stomach Bitters.—No medicine has ever achieved a higher reputation. In every section of the country its merits are known and fully appreciated. The leading physicians in the country have expressed their warm approval of this preparation, as uniting all the best qualities of a tonic and invigorator, without kindling an appetite for alcoholic liquors. In cases of disorder of the digestive organs, to which all uncleanly and persons are from necessity exposed, as the proper diet cannot at all times be had, the Bitters will be found to be the quickest corrective and most reliable remedy yet discovered. Diarrhoea, Dysentery, and the various bilious and intermittent fevers, all yield to the curative properties of this medicine. No person should be without the Bitters a single day.

DRUGS & MEDICINES.

THE WORLD'S FRIEND!
Holloway's Ointment.
A Cure for Piles and Fistulas.
Inflammation of sensitive parts, piles, fistulas, and
such like painful diseases may be presently relieved,
and ultimately cured, by the proper and diligent use
of this cooling and healing Ointment, whose action
is so rapid, that in many cases, but a few applications
of Pills; ere many days have elapsed the anxious pa-
tient will experience a wonderful degree of ease from
this treatment. They are equally suitable to both
sexes, and all ages.
Coughs, Colds, and Asthma.
These complaints of the chest come on with alarm-
ing frequency. The Ointment should be assiduously
rubbed at least twice a day on the chest and between
the shoulders, when the violence of all symptoms will
gradually give way, the breathing become longer,
and the oppression less. No medicines are more effi-
cient in chest complaints, none can be used with
equal safety and certainty. Both Pills and Ointment
are accompanied by very clear and simple directions
for using them.

A Man who refused to have his Leg off.
"From the Kilrush Advertiser, June 2d, 1860."
BENJAMIN ESQUIRE, Magistrate, said in the
Court Room at Kilrush, that he knew a man who
had been in the Infirmary and was actually turned
out as incurable, on his way home to Kilrush, he
purchased at Ennis, Holloway's Pills and Ointment.
For, as he said, it could not be worse with him. This
man, said Mr. Cox, became by their use as sound and
as healthy as any man in the room. These celebrated
Pills and Ointment will cure any wound, sore, or ul-
cer, however long standing, if properly used accord-
ing to the printed directions.

Gout and Rheumatism.
The essence of these diseases lies in the blood, which
has, passing through the vessel, the pain-giving
poison, which irritates and inflames every tissue it
comes in contact with, and produces the hot, swollen,
elastic enlargement about the joints so characteristic
of gouty diseases. The philosophy of cure consists
in overcoming the morbid flow of the blood, which is
rapidly purified by the use of the Pills. The Oint-
ment, when rubbed upon the skin, penetrates the
system through the pores, acts in unison with the
Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.
The various kinds of dropsies, whether windy or
watery, arise from some obstruction to the free cir-
culation through the blood vessels, or by an accumu-
lation of the inflamed state of some secretory sur-
face. Holloway's remedies, of which the efficacy cannot be
exaggerated, act directly upon the blood, the absorb-
ents and secretions, with a power that no dropsy
however inveterate can long resist. The vessels are
cleansed, the morbid flow of blood to every organ, and purify
it likewise,—they filter out everything that is morbid
or injurious,—they thoroughly regenerate every func-
tion, yet potent as they are for good, they are power-
less for evil. They do not contain mercury or any
noxious substances. They act safely and certainly.

Bad Legs, Bad Breasts, and Old Ulcers.
This invaluable Ointment was never known to fail
for the cure of any wound, any sore, or any ulcer,—
as can be proved by innumerable testimonials from
persons who had been discharged from Hospitals as
incurable, and yet by perseverance they have been
made as sound as they were the day they were born,
by the incomparable Ointment. For pimples, blotch-
es, scald heads, and scorbutic humours, it is equally
efficacious.
Both the Ointment and Pills should be used in the
following cases:
Bad Legs, Chloasma, Fistulas, Sore-throats,
Bad Breasts, Chilblains, Gout, Skin-diseases,
Burns, Chapped Hands, Gravel, Scalds,
Itch, Corns (Soft), Swellings, Scum,
Lunatic, Cancers, Lumbago, Tumors,
Of Mos- Contracted and Piles, Ulcers,
quitoes and Sand-Flies, Stiff Joints, Rheuma- Wounds,
Scalds, Elephantiasis, Yaws, Sore Nipples

There is a considerable saving by taking the
larger sizes.
N. B.—Directions for the guidance of patients in
every disorder are affixed to each Pot.

Greeley's Bourbon Bitters.
THE POPULARITY OF THESE BIT-
ters is justly due to the purity of the materials
of which they are prepared, and the care and
calculation to act upon every part of the digestive
organs, and through them to reach and cure all complaints
arising from a diseased condition of the Stomach
and Bowels.
GREELEY'S BOURBON WHISKEY BITTERS
are highly nourishing, and actuating, and as a Tonic
for the weak, delicate ladies, consumptive patients,
and all weakly persons, they cannot be surpassed. In
all cases of Weakness or Debility, they will give im-
mediate relief, and impart a strong, healthy tone
to the system. For the cure of Dyspepsia, Indigestion,
Nervous Disorders, Liver Complaint, Weakness,
Debility, Flatulency and Nausea, and all complaints
consequent upon a disordered state of the Stomach,
Liver and Bowels, they are not equalled. As an agree-
able stomachic, they are much admired; they sharpen
the appetite, brighten the intellect, and infuse new
life and vigor. No one who uses these Bitters can be
subject to an attack of Fever and Ague or Diarrhea.
Put up in quart Bottles, in cases of one and two
dozen, and for sale by Druggists, Grocers and Liquor
Merchants everywhere.

sales, and favor with consumers. In all cases of
DYSPEPSIA, DEBILITY, LOSS OF APPETITE, or
any irregularity of the stomach, they will be found
and ready, as well as a most wholesome and
agreeable Tonic.
As a preventive of Chills and Fever, they have no
equal, and have with thousands become an indispen-
sable family medicine; being perfectly pure, and free
from any deleterious substance, can be taken by all,
young and old, male and female, with benefit.
